

Canadians Must Conform To U.S. Immigration Laws According To New Ruling

Washington.—Notice will shortly be given by the United States Immigration authorities that after June 1 next portlands of Canada bordering the United States will be closed to the border daily to work in the United States must conform to the immigration laws of this country. This means that those who obtained employment on the United States side of the border since the quota immigration laws went into effect must register under the quota of the year in which they first began working in the United States. Canadian-born workers in the United States will not be affected.

Commissioner Hall of the immigration department made it clear that native Canadians would not be disturbed by any regulations issued. A statement is to be published shortly under which the residents of Canada may cross the border daily to work on this side, but it will require the old law that set any new departure.

The Canadian legation has obtained assurance that everything will be done to accommodate non-quota workers already engaged in the United States, and that reasonable time will be granted to allow them to take out permits under the new laws. It is understood that British born were living in border towns before 1920, when the quota system was adopted and thereafter will not be required to apply for permits. Places may be found in the old quotas for those working in the United States for years.

"We are going to make it as easy as we can for everybody," said Commissioner Hall. Apparently the regulations are designed to prevent new settlers coming from Europe, who are working in the United States, rather than to affect those who have been living in Canadian border towns for some time.

Russian Trade

Improvement in Agriculture and Industries in Russia—A big British concern engaged in shipbuilding has approached the chief concession committee of the Union of Soviet Socialist Republics offering \$100,000,000 long-term credits to build mercantile ships for the Soviet, according to announcement made by the trade delegation of the Union. The offer, it was stated, was now under consideration.

During the four months of the current fiscal year, beginning October, 1924, export trade of the U.S.S.R. reached \$135,000,000, leading a favorable trade balance of nearly \$48,000,000. Trade was carried on principally with western countries. The Soviet Republics three declared the population of Russia was now 14,805,000 and state has showed a general improvement in agriculture and industries since the 1921 period of depression.

May Test Old Agreement

Canadian-U.S. Visa Pact Interest Immigration Men at Washington.—Washington.—Immigration officials here were greatly interested in reports that the Chamber of Commerce at Windsor, Ont., had taken steps to develop through the Canadian government the ability of the U.S. Army of 1919, under which Canadians might cross the boundary into the United States without passport or visa. A case involving similar questions was recently fought out in the courts by Canadian Indians who were given the right to cross the border unharmed and an appeal by the government in this case has been entered.

Was Typhoid Carrier

Montreal.—A man who had typhoid fever 20 years ago and remained a carrier is the only source discovered to account for the fever epidemic which started in Montreal, March 4, and carried on for more than a month before being brought under control. Some 2,510 cases developed. This man was being applied for and not work in a local dairy. He was diagnosed as soon as it was learned that he was a carrier.

One touch of weather supplies the whole bunch with something to talk about.

W. N. U. 1678

Canada's Jubilee

Sir Arthur Curry Would Like to See Preparations Halted by U.S.

Montreal.—The spirit with which he said, Canadians were approaching the jubilee date of Confederation was, declared by Sir Arthur Curry, commander-in-chief of the Canadian troops during the war and president of the Dominion Club, he spoke before the Electrical Club of Montreal.

"Jubilee committees have been appointed," said Sir Arthur, "but I would like to see some sign of activity upon the part of these forming committees. The birthday of Confederation is not far off. It is high time something were done. I know that on the first of July those great bells at Ottawa will peal out but they will not reach the general public of Canada."

Chinese Communists Executed Shanghai.—Six persons described as communists and including the head of the Chinese secret union, were executed today at the National (Cantonese) headquarters in the native city of Shanghai. This brings the total number of executed since the revolution began their drive against the Reds to more than 100.

FORMER LABOR PRIME MINISTER AT WASHINGTON

Washington.—A sentimental traveler down old familiar roads was right Hon. H. Ramsay MacDonald, former Labor Prime Minister of Great Britain, described himself to the Canadian Press correspondent here, when he arrived for a brief visit to Sir James Howard, the British ambassador.

Mr. MacDonald stated that his visit had no political significance. He said he was unable to reach Canada on this trip as "pressure of business" compelled him to sail for home very early.

Asked if British Labor had seriously repented the deportation law which he had introduced, MacDonald said he had never been seriously repented that the edition laws of the Dominion would be unfairly used against Britishers there.

In the opinion of the former Prime Minister, the Baldwin Government had "fumbled" and the trend of political opinion was in favor of the return to a Labor Government in Great Britain on his analysis of the vote in recent by-elections in Leicestershire and Southwark.

Mr. MacDonald predicted a recurrence of the coal miners' strike unless wrongs of the miners were redressed soon. He did not believe, however, that the general strike would be held in the near future, remarking that many who favored the general strike would be found themselves unwilling to be "generalists."

Mr. MacDonald was a frequent guest at the British embassy and was entertained at dinner by the general council of the American Federation of Labor.

All the World a Mirror

Sound of a Face Is Flashed Across the Atlantic

London.—The latest accomplishment in the progress of science toward making all the world a mirror by means of television was announced recently by the British Broadcasting Corporation. It was declared that news transmitted across the Atlantic.

J. L. Baird, the inventor of television in Canada, said that he had never been seriously repented that the edition laws of the Dominion would be unfairly used against Britishers there.

Baird plans to visit the United States in June and install a receiving machine which will turn the face of the world into a picture of the face in itself.

Another Royal Exhibit

Belgian Queen Announces Entry for Royal Exhibition

Ottawa.—Still another member of a European royal family is to be an exhibitor at the world's poultry congress to be held in London, July 27 to August 4. Congress headquarters declared the population of Belgium was now 14,805,000 and state has showed a general improvement in agriculture and industries since the 1921 period of depression.

Other royal exhibitors already announced are His Majesty King George, H.R.H. the Prince of Wales and H.R.H. the Prince of Asturias, heir to the Spanish throne.

Expected to Win Chapter

Toronto.—W. H. Chapman, aged 77, who has walked nearly 10,000 miles since July, 1923, to "do," he says, a \$5,000 wager, passed through this city April 19. He has yet to cross the continent to comply with the rules of the wager. He started from Milwaukee and is now going to Cochrane, and expected to be in Vancouver and complete the round trip some time in the summer.

Hopes to Retain Mac'Brien's Services

Ottawa.—The long expected visit of Major-General J. H. Mac'Brien, chief of staff of the Department of National Defence, might be retained was expressed by Premier King, addressing the officers of the Governor-General's Foot Guards at a dinner. General Mac'Brien came this ago (under his residence) Premier King paid high tribute to General Mac'Brien.

Canada Olympic Grant

Ottawa.—An appropriation of \$35,000 has been made by the Canadian Government to defray the expenses of an athletic team which will be sent to the 1928 Olympic games. Officials anticipate that the athletes will make the trip.

IS NOT POSSIBLE NOW TO EQUALIZE FREIGHT RATES

Ottawa.—After sittings extending over two years and occupying 101 days, the general freight rates in inquiry by the Board of Railway Commissioners is drawing to a close. The inquiry is expected to be completed this week.

James P. Kirby, K.C., the last case to be heard for the provinces or other opposing rates increases, concluded his address and W. N. Tiller, K.C., Toronto, at once opened the case for the railways. He remarked on the changes which had occurred since the first important inquiry into freight rates was before the board, in 1911. Important changes had occurred in transportation conditions. In those days there was only one trans-continent railway spanning Canada.

Mr. Kirby said, "So, too, the scope of our inquiry has far more extensive and comprehensive than any previous investigation had been and the judgment of the board, when rendered, will be of the greatest importance to all concerned—up to the railway, the provinces and the nation as a whole."

Mr. Kirby dealt at some length with the matter of equalization. He declared equalization of rates was impossible, and that attempts to adjust the present rate structure today on the principle of an equal rate for equal mileage in every part of the country would mean chaos and disaster to the commerce of the country.

It was far less necessary, he declared, to set about an adjustment which would enable the natural resources of the country, the fruit, lumber, canned products, fish, etc., to move from the point of production to the most profitable market and so facilitate the development of that market, both domestic and foreign, than it was to legislate so that the trader in Montreal could serve his local market, of his own choice, and the cost of transportation as the trader in Winnipeg could serve his.

Equalization of rates, said Mr. Kirby, was no new idea. An attempt had been made in 1875 to get Canadian legislation through the Imperial Parliament but without success and a similar attempt in the Imperial Parliament, the previous year had met the same fate. Today it was no more practicable than it was half a century ago.

Arctic Flier Is Safe

New York.—The North American Newspaper Alliance has been informed that Lieut. George H. Wilkins, Arctic flier, who has been missing since March 29, when he hoped on from Point Barrow, Alaska, for the north, has made a safe return to Beechey point.

Negro's Skin Turns White

Ottawa, K.C.—Eugene K. Brown, whose skin began to change color a few years ago, is dead at his home near Sault Ste. Marie. At the time of his death, he was 52 years old. His skin had been transformed from black to white.

Government Refuses To Act

Peking Officials Reject Soviet Demands in Chinese Wine Raid

Paris.—Rejection by the Peking Government of the demands of the Russian Soviet Government in connection with the raid on the Soviet buildings in the embassy compound at Peking is reported in a dispatch to the United Press Agency. The raid on orders of the Northern Chinese authorities was carried out on April 10.

Two days after the raid the Soviet Government ordered all the embassy officials to leave and in a note delivered to the Chinese chargé d'affaires at Moscow, made a series of demands. These included immediate evacuation of police from the compound, the release of all those arrested in the raid, and the return of all documents seized, together with all money, personal property, household goods and books taken by the police.

Only Two Dry Provinces

Government Liquor Control Goes Effect in New Brunswick

Fredericton, N.B.—The province of New Brunswick formally associated with the other six provinces of Canada which have Government liquor laws, when the Legislature passed the Liquor Control Act, which will shortly come into operation in Ontario.

This leaves only Nova Scotia and Prince Edward Island with temperance laws based on prohibition of the sale of alcohol.

Federalship Seizure Illegal

Judge Hands Down Decision in California Court

San Francisco Cal.—Handing down a decision that the seizure last March of the steamship Federalship by its million-dollar cargo of liquor and arrest of the captain and crew, the members of the crew, 60 miles off the California coast, was illegal, Federal Judge Houston ruled that the seizure was in violation of treaty relations between nations.

Capital S. S. Stone, skipper of the Federalship, and 23 passengers and crew were released from jail following the judgment.

CIVILIAN WAR SUFFERERS MUST WAIT FOR A YEAR

Ottawa.—There will be no payments this year to the civilian war sufferers of the great war.

Reparations Commissioner Friel has not yet completed his work. The country has been for some time pressing Mr. Friel to hurry his reports, seven being still unfinished, but he has been unable to do so.

The result is that many impoverished citizens of Canada may suffer for another year without the essential life insurance which the Dominion is willing to pay. These war sufferers have no legal claim, but the principle has been generally accepted that compensation payments will be made out of Canada's share of the reparations under the peace pact.

There is no legislation authorizing this and winter payment is made must be specifically voted by parliament. An attempt was made two years ago to get parliament to vote part of the money, but this was rejected by parliament was the result.

With parliament prorogued and the commissioners' final report missing, there was no vote passed. The secretary of state admits that some of the claimants are in a destitute condition, yet nothing can be done for Canada.

Canada has received \$1,000,217 in payments on reparations account, and has been paid \$1,278,550 due from Britain. The latter sum, however, is dependent on the settlement of other accounts between Britain and Canada. If this sum is paid there will be \$7,795,947 available on reparations account, together with any savings instalments paid in the meantime.

The policy of the government with reference to this money will not be made public until the next session makes its report.

The British parliament appropriated \$2,500,000 for distribution to Canadian war sufferers. The Canadian who had suffered loss. Canadians domiciled in Canada have been compensated, but Canadians who have been at home since the war nearly nine years after the war is over.

Agricultural Conditions Throughout West Are Regarded As Satisfactory

British Peer Joins Laborites

Sir Robert Peel Has Gone Over to the Labor Party

London.—Another member of the British nobility is to join the Labor Party. Sir Robert Peel, a member of the House of Lords, has announced his intention of joining the Labor party, from whom the Labor party has derived the nickname "Peelites" has since then been called the Victorian period, has announced his intention of participating in politics on the side of Labor. The young peer has already had under consideration proposals to stand for Parliament in the Tyneside division of South Staffordshire, his home, which was the division represented by his grandfather when he entered politics.

While prime minister, the late Lord Peel founded the modern policy of Labor, and immediately the policy became known as "Peelism," but the designation lasted only for a short time.

Announces Anaemia Cure

Ready For Public Use Very Soon Says Rochester Doctor

Rochester, N.Y.—A man has proclaimed a new discovery over disease with the announcement that within a few weeks there will be ready for use a cure for anaemia that has been successful in 50 out of 100 cases.

The announcement was made by Dr. George R. Whipple, dean of the medical schools of the University of Rochester, after ten years of experiments in which he has been assisted by Drs. Fred S. Robbins, physiologist at the school. For the past two years Dr. George R. Whipple and Dr. John J. Cobb, of Harvard medical school, have collaborated with him.

The cure is a serum discovered during a decade of experiments on anaemic dogs and humans. It is an extract of beef liver but has not yet been officially patented to make chemical identification or naming possible. It will be distributed through selected physicians, the doctor said.

SUNDAY SCHOOL LESSON

MAY 1

PETER'S DENIAL AND REPENTANCE

Golden Text: Let him that thinketh he standeth, take heed lest he fall.—1 Cor. 10:12.

Lesson: Mark 14:32; 24: 66, 67.

Devotional Reading: Psalm 31:1.

Explanations and Comments

In 1:32, 33:24.—The time is the time of the trial and the trial is the trial of the church. The church is being tried by the world, the flesh, and the devil. The church is being tried by the world, the flesh, and the devil.

Below in the contrast with Peter. He had followed Jesus all night, and had entered "even within into the court of the high priest." Mark tells us. The expression is redundant, and suggests the idea of one stealthily feeling his way into the court of the palace, venturing far and farther in, and getting on with each step.

The court was the inner court, around which the palace was built. With the officers (doublets) the military staff who had delivered up their prisoners and were waiting for the trial of the prisoners.

Warning himself by the fire which glowed in an open charcoal brazier. In the spring the nights are cold at Jerusalem and a fire is welcome.

"Simon, and apprehensive at a word." Peter, the bold disciple of his Master, the bold disciple of his Master, the bold disciple of his Master, the bold disciple of his Master.

He is still by occasions harshly dealt with. The steady eye that flamed in the night, the steady eye that flamed in the night, the steady eye that flamed in the night.

Shifts from wide eye to eye of one that was. O Peter! Canst thou so soon forget? Canst thou so soon forget? Canst thou so soon forget?

Alas.

Winning Man.—A general survey

of agricultural conditions throughout the west made by the agricultural department of the Canadian Pacific Railway, shows that conditions are satisfactory, though the spring is somewhat belated. The general condition of the soil, and the cold changeable weather of the past two weeks, have delayed commencement of work and precluded any possibility of farmers getting an early start. With the exception of a small amount of plowing and sowing in southern portions of the prairie provinces, no work on the land has been done, but it is scarcely likely even under the most favorable weather conditions that sowing can become general in the west before the end of April or the beginning of May. In higher lands having good drainage, sowing should commence early this week.

Sowing in Manitoba, in 1920, was not general until May 4; in Saskatchewan, May 6; in Alberta, May 7. In 1921, sowing was general in Manitoba on May 6; in Saskatchewan, May 8; in Alberta, May 9. The long cold winter with considerable snow, combined with a shortage of food in many parts of the west, has been a hard year for farmers, with a likelihood of this cattle, this spring.

During their optimism largely on the fact that good springs have started off with as much moisture in the soil as now, farmers are looking forward to a good crop year. In practically all the districts throughout the west there should be sufficient moisture to start the crop, until the beginning of June.

Plan to Broadcast Carillon Concert

If Bells Installed, Recital Will be Given July 1

Ottawa.—On the night of July 1, it is planned, in connection with the Diamond Jubilee celebration, to broadcast from coast to coast a recital on the Carillon of the Parliament building. It is then installed, and also a program of patriotic music. The Carillon of the Parliament building is reported to be under way. It is planned, in connection with the Diamond Jubilee celebration, to broadcast from coast to coast a recital on the Carillon of the Parliament building. It is then installed, and also a program of patriotic music.

Disastrous Fire In Japanese City

Thousands Homes Destroyed and Many Casualties Reported

London.—A disastrous fire, which is believed to have caused many casualties and destroyed about 1,600 houses in the town of Kanazawa, is reported in a dispatch from Tokyo. The fire spread through the town, which is in Central Japan. The fire spread through the town, which is in Central Japan. The fire spread through the town, which is in Central Japan.

Toronto Bank Robbed

Toronto.—Four men, the manager and four members of the King and Bathurst Street branch of the Bank of Toronto into the vault at the point of revolvers, three hands escaped with \$18,500. A few minutes elapsed before the bank employees managed to open the door of the vault and give the alarm. One of the men, the manager, was wounded by the robbers, believed to be fugitives, were their escape.

Noted Canadian Doctor Dead

Toronto.—Dr. Donald Campbell, who died here after a protracted illness, was one of the leading authorities on nervous diseases, which he studied under the leading neurologist of Germany, Dr. Krause, in 1881. He established the first hospital in Canada devoted exclusively to treatment of nervous diseases.

Erecting New Wireless Station

Calgary.—Work is now on the most powerful broadcasting stations in Canada, at Red Deer, Alberta, is announced by the Alberta Electric Company, which operates 23 radio stations in Manitoba, Saskatchewan and Alberta.

Supports New Voting Bill

London.—Lloyd George has promised his support to the Government's bill for the amendment of the Representation of the People Act, 1918. The measure is to be introduced in the House of Commons shortly.

**MEN AND MONEY COMING
TO WESTERN CANADA**
WINNIPEG, Man.—Millions of
dollars in cash and moveable property
will be moving northward into Can-
ada, says J. H. Ryan, of the St. Paul office
of the Canadian Pacific Railway's De-

partment of Colonization and Develop-
ment. "This movement will equal
that of 1912 & 1913," he said, "when
the Saskatchewan office of the com-
pany alone handled land sales which
amounted to between \$3,000,000 and
\$4,000,000, and Alberta did even
better."

Manhood says woman is just a
parenthesis. With most men she is
a problem.

A lot has been said about the Cal-
gary Stock Exchange and the low
price of oil shares. It looks as
though the members have a tough
"tickling" job on their hands.

United States warships are having
a rough time of it in Chinese waters.
Anyone who gets his washing done
at a Chinese laundry can sympathize
with the warships.

Prof. Stephen Leacock believes four
hours work a day is sufficient. We
can't figure out whether he really
means it or whether it is some of his
humor.

One of the trustees at a jail farm in
Ontario escaped recently while en-
gaged in painting a school house. His
name was Pieschard. He flew hard
when he got the chance.

Starvel and other towns in South-
ern Alberta are making arrangements
to buy electricity from the Calgary
Power Co. at a basic rate of 10
cents a k.w.h. Bassano still pays
an 18 cent rate, although there has
been some mention of a reduction
this summer. The reduction will
be welcome.

Calgary now has a steamship, the
"Calgaric," named after it. Oh well,
Bassano has a bucking horse named
after the town.

Labor members of the Glasgow city
council have decided that when King
George and Queen Mary visit the city
next summer there will be no official
welcome accorded them. The Scots
will eat their own haggis.

LONG ODDS
A Coleman Scotchman has offered
\$25,000 to the first person to swim
the Atlantic Ocean.

It's a long head that knows no
tiring when a pretty girl passes.
—Blumore Enterprise

In the spring an old man's fancy
fondly turns to thoughts of golf.
—Medicine Hat News.

A ditch digger works ten hours a
day for \$2. That's his labor. A me-
chanic takes \$5.00 worth of steel and
makes it into watch springs, worth
\$50.00—that's his skill. A merchant takes
an article that costs 75 cents and sells
it for \$1.00—that's his business. We
know a man who takes four-bit
worth of canvas and fifteen cents
worth of ink, and makes a picture
which he sells for a hundred dollars
—that's art. Irvin Cobb takes a few
pieces of paper, writes on them, and
makes them worth thousands, movie
scripts included—that's genius. A
woman can buy a hat for \$2.19, but
likes it better if it costs \$21.90—now
what the h—ll is that? —The Nabob.

**THE DIAMOND
JUBILEE**
Friday, July 1st, is the diamond
jubilee of the confederation of the
Dominion of Canada.
Towns and cities in every province
are making plans to celebrate Can-
ada's sixtieth anniversary. Great
preparations are being forward to
make the occasion a big event in
Canada's history.
Bassano's annual celebration day
is July 1st. This is the day of the dia-
mond jubilee. It is probable that
part of the day's program will be
specially prepared for the commemo-
ration of this, Canada's sixtieth
birthday.

**KEEPING UP WITH
THE DAIRY INDUSTRY**

"The Cow Bell" has sounded its
first note in the pastures of the
dairy industry of Alberta.
"The Cow Bell" is a monthly maga-
zine for Alberta dairymen. It is
published in Edmonton by the Alber-
ta Co-Operative Dairy Producers Ltd.
The magazine makes its first ap-
pearance March 25th with a number of
interesting and instructive articles
and stories on the various phases of
dairy work, and devoted some space
to news of the dairy pool.

The dairy industry in Alberta is
growing in importance from year to
year. More and more farmers are
realizing the value of a steady in-
come to be had from a herd of cows.
"The Cow Bell" is designed to
stimulate the dairy industry in the
province, and to help dairymen im-
prove their herds and increase their
returns from dairy work.

"SPRING SONG," by Bliss Garmen
One of the greatest nature and ly-
ric poets of this day is Bliss Garmen.
Born in Canada, he has spent most of
his life in New York and Connecticut.
He is, at moments, almost the equal
of Wordsworth in his power to be-
come literally a part of the earth of
which he sings so realistically. This
poem is abridged here, of necessity,
but one may get its flavor from these
following stanzas:

Make me over, Mother April,
When the sap begins to stir!
When thy flowery hand delivers
All the mountain-prisoned rivers
And thy great heart beats and quivers
To revive the days that were,
Make me over Mother April,
When the sap begins to stir.

Set me in the urge and tide-drift
Of the streaming hosts a-wing!
Breast of scarlet throat, or yellow,
Tawny challenge, woads mellow—
Every migrant to my fellow,
Making northward with the Spring.
Set me in the urge and tide-drift
Of the streaming hosts a-wing!

Make me over Mother April,
When the sap begins to stir!
Fashion me from swamp or meadow,
Garden plot or ferny shadow,
Hyaline or humble burr!
Make me over Mother April,
When the sap begins to stir!

Let me hear the far, low summons,
When the silver winds return;
Rills that run and streams that
stammer,
Goldenwing with his loud hammer,
Icy brooks that brawl and clamor,
Where the Indian whistles burn;
Let me hearken to the calling,
When the silver winds return.

Only make me over, April,
When the sap begins to stir!
Make me man or make me woman,
Make me elf or ape or human,
Cup of flower or cone of fir;
Make me anything but neuter
When the sap begins to stir!

ALBERTA WHEAT POOL
News Bulletin

Hanna townpeople and Hanna farmers are planning on a united drive to put over abundant crop sales of the new wheat pool contracts, according to information received at the Pool head office. The Hanna Agricultural Society and the Kananis Club of that town are planning on putting their combined strength behind a drive to make the Hanna district solid for the wheat pool. In scores of other centres in Alberta the same feeling is manifest. The majority of the townpeople are lined up with the farmers in the latter's determination to handle and merchandise their own wheat.

Alberta Wheat Pool directors have decided that the 6 per cent interest accumulating on Elevator Reserve Accounts, should be paid out to the members in all cases where it amounts to \$150 or over.

Payment of this interest from August 21st, 1925, to August 31st, 1926, on deductions made from the 1924 crop, will therefore, be made about the end of May, and must a total distribution of approximately \$20,000.

Amounts under \$100 will simply be added to the member's accounts and carried forward to the following year.

The lease of Vancouver Terminal Elevator No. 2, by the Alberta Wheat Pool has been finally signed and the Pool takes over this terminal on Aug.

TEN COMMANDMENTS
OF SPORT

1. Thou shalt not quit.
2. Thou shalt not alibi.
3. Thou shalt not gloat over winning.
4. Thou shalt not be a rotten loser.
5. Thou shalt not ask odds that are unfeeling to give.
6. Thou shalt play the game square.
7. Thou shalt always be ready to give thine opponent the shade.
8. Thou shalt not over-estimate an opponent nor over-estimate thyself.
9. Remember that the game is the thing, and that he who thinks that otherwise is a mucker and no sportsman.
10. Honor the game thou playest for he who plays the game straight and hard, even when he loses.

Hugh S. Fullerton, in American Magazine.

last list. The rental for the first year is \$100.00 and will be slightly higher for succeeding years.

Speakers from Alberta will occupy places of honor and importance at the International Wheat Pool conference to be held at Kansas City, Missouri, May 5, 6, and 7. H. W. Wood, chairman of the board of directors of the Alberta Pool, will deliver a public address on the afternoon of the first day, and Premier J. E. Brown will deliver an address at the banquet that evening.

At the latter pair, Lauri is the heavier yielder. But its straw is too short for dry seasons. Liberty possesses excellent field quality, rivaling Legacy in earliness, and in nine years performance has justified Dr. Bannard's advance notices by producing about seven-eighths as much wheat as Victory. Earliness and hulllessness are its two special virtues. Though subject to smut, it has been kept perfectly clean on the station for nine years. Its worst failing is a tendency to revert to the bulb-retaining type.

As a farmers' standard feed oat, nothing has been found better than Banner. The 1925 crop has pushed it to the top of the eight-year average column with 56 bushels 13 pounds per acre, closely followed by Victory with 55 lbs. 18 pounds, Ligowo 57 bushels 31 pounds, Daubenny 57 bushels 31 pounds, and Liberty 56 bushels 28 pounds, equivalent to 72 bushels 21 pounds of ordinary oats carrying thirty per cent hull.

Victory practically ties with Banner in yield and is a much superior exhibition oat, more attractive also in the elevator. It averages 2.5 days later in a seven-year comparison. It may be, if anything, a little more inclined to lodge.

In 1925, Banner was the only one of eight medium-to-late oats to stand up well. Its advantage on this score was plain in both the ranges. Another point in favor is that it is economical of seed. It may be dwarfed by a seed that would be favorable to abundance. Two and a half or three bushels of good seed is plenty.

For general use one makes no mistake on either Banner or Victory.

Experiments With
Varieties of Oats

Results at Beaveridge Station

(Experimental Farms Note.)

Twenty-one varieties and strains of oats were grown in red rows at the Beaveridge Sub-Station in 1925. Twelve were confined also in the drilled plots.

Three of the twelve have been tested consecutively since 1912. The eleven-year average yield for Victory is 67 bushels 15 pounds, for Ligowo 63 bushels 16 pounds, and for Daubenny, representing the very early oat, 53 bushels 9 pounds.

During the last nine years Victory has required an average of 1541 days to mature, Ligowo 1511; and Daubenny 1483 days. Daubenny has thus been 153 days earlier than Victory, but its short, fine straw, its limited yield and unattractive, long clean kernel discount it heavily. It is not recommended for any important section of the Peace River District. Neither is Alaska nor O. A. C. No. 3.

To those requiring an earlier oat than Banner, the new Ottawa variety, Legacy, is strongly recommended. On an average of five years' trial it has ripened within three days of Daubenny. It grows a longer straw, has a larger kernel and outside Daubenny by quite a wide margin. In 1925 it was one of the four that stood entirely upright at harvest, in other three being Daubenny and the two bulles oats, Liberty and Lauri.

Of the latter pair, Lauri is the heavier yielder. But its straw is too short for dry seasons. Liberty possesses excellent field quality, rivaling Legacy in earliness, and in nine years performance has justified Dr. Bannard's advance notices by producing about seven-eighths as much wheat as Victory. Earliness and hulllessness are its two special virtues. Though subject to smut, it has been kept perfectly clean on the station for nine years. Its worst failing is a tendency to revert to the bulb-retaining type.

As a farmers' standard feed oat, nothing has been found better than Banner. The 1925 crop has pushed it to the top of the eight-year average column with 56 bushels 13 pounds per acre, closely followed by Victory with 55 lbs. 18 pounds, Ligowo 57 bushels 31 pounds, Daubenny 57 bushels 31 pounds, and Liberty 56 bushels 28 pounds, equivalent to 72 bushels 21 pounds of ordinary oats carrying thirty per cent hull.

Victory practically ties with Banner in yield and is a much superior exhibition oat, more attractive also in the elevator. It averages 2.5 days later in a seven-year comparison. It may be, if anything, a little more inclined to lodge.

In 1925, Banner was the only one of eight medium-to-late oats to stand up well. Its advantage on this score was plain in both the ranges. Another point in favor is that it is economical of seed. It may be dwarfed by a seed that would be favorable to abundance. Two and a half or three bushels of good seed is plenty.

For general use one makes no mistake on either Banner or Victory.

A. F. MacCallum and Mrs. MacCallum and children were down from Glenlea last Sunday.

Mrs. Ethel Holmes went back to her duties as teacher at the Fawn Hill school which opens for the summer term on Monday last.

THE FARM TRACTOR

(Experimental Farms Note.)

From information received by the Central Experimental Farm, Ottawa from 56 tractor owners in the Prairie Provinces it has been found that 80 per cent of these men consider their tractors a profitable investment.

While only 50 per cent claim that their tractors are profitable for field work, an additional 30 per cent state that their tractors are profitable for best-work. The main advantage of the tractor is, that it enables the owner to keep both field and harvest operations up to date. Other advantages are, reduction of hired help and number of horses required to operate these farms.

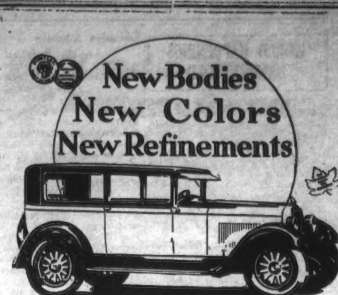

Tractors were successfully operated under varying conditions, however; land operation seems inadvisable where fields are too hilly, too stony or too sandy. Such conditions together with small farms, high initial cost and high cost of fuel were given as the chief reasons for tractor failure.

These recommendations by these owners. The smallest number of cultivated on which to purchase a tractor may be stated as, 100 acres for every plow pulled.

The cost of tractor operation is made up of two major items, namely overhead and direct operating costs. The direct operating cost includes fuel, oil and wages of the operator. Overhead includes depreciation, interest and repairs. The overhead charges are prorated against the amount of work the tractor does annually.

As all groups of tractors in the Prairie Provinces were used over 60 days per year, on the average, the daily overhead charges were relatively low, resulting in a low daily operating cost of \$5.44 for two-plough tractors; \$11.05 for three-plough tractors; and \$15.95 per 10-hour day for four-plough tractors. These daily costs include the operator's wages at \$3.00 per day. The smallness of the last two figures is due to the fact that a large proportion of the four-plough tractors were used on disc-ploughs but were of about the same rated horse power as the three-plough class. The tractor greatly increases the amount of available power on the farm, which accounts for the claim that it enables the work to be kept up to date. A tractor will frequently provide a very profitable investment, but as there many jobs that can be done more economically with horses, its place is to supplement the work of horses. While many tractor owners who have only 30 to 40 days tractor work per year, claim their machines are profitable, it should not be overlooked that there is a distinct advantage to be gained in the matter of lowered daily costs by having as many additional days work as possible.

Field Husbandry Division, Central Experimental Farm, Ottawa.

AT NEW LOW PRICES

THE art and skill of Fisher craftsmen are strikingly exemplified in the long, low lines of the New and Finer Pontiac Six bodies, in their smart belted effects and in their luxurious comfort!

Rich Duco finish, in the latest and most appealing colors, adds to the striking beauty of the New and Finer Pontiac Six. New refinements such as sweeping, full-crown fenders, new, higher radiator, tilted beam headlights, place this car in a class far above that into which its phenomenally low price brings it.

And, back of all these evident improvements and advances stand the established Pontiac qualities of power, speed, stamina and economy—the qualities which won for Pontiac Six the most outstanding success ever accorded any new car during its first year.

Only by seeing the New and Finer Pontiac Six, by driving it and by learning its new, lower prices, can you realize how great a thing has General Motors done in the field of the low-priced six.

PREVENT FOREST FIRES

For Sixty Years

THE FOREST has played a major part in Canada's development. The stability of our forest industries is threatened by forest fires which have destroyed five times the quantity of timber used. Carelessness with fire in the woods has been mainly responsible. Will YOU help to stop this wanton waste and ensure Canada's continuing prosperity?

TOWN OF BASSANO

Summer Water Service
Summer Water will be connected with the water supply on the 1st of May, 1927.

All intending consumers are requested to notify the undersigned at the Town Hall before that date.
Jas. R. Donaldson,
Sec. Treas.

Ben S. Plummer, Wheat Pool director, returned from an executive meeting in Calgary on Monday.

Mrs. Haddock of the Wintering Hills, north of Hussar was a business visitor to Bassano on Monday.

John Stille has returned to his ranch at Hussar.

Don Galbreath was in Bassano on Thursday on business.

The high school pupils and their friends had a most enjoyable time at the Oddfellows Hall on Friday. Music and dancing were the order of the entertainment which was put on as a windup of the holidays.

Wm. McLaws has purchased a Chrysler "48" sedan from Currie & Milroy, Chrysler dealers.

The corral at the town pound are being improved and enlarged by the addition of another round pen for brand examination. Harry Bacon says they need more room to take care of sudden increases like that which happened a few days ago when he discovered a wobbly long legged colt in the pound that wasn't there the night before.

Alberta potatoes, good quality, exceptionally low price of \$1.15 a bushel at Jack Torgan's. Place orders early, supply limited.

HIGHER MATHEMATICS

How many apples did Adam and Eve eat?

Some say Eve 3 and Adam 2—a total of 10 only.

Now, we figure the thing out far different.

Eve 3 and Adam 3 also—total 16. If Eve 3 and Adam 62, certainly the total should be 90.

Scientific men, however, on the strength of the theory that the antediluvians were a race of giants, reason something like this: Eve 61 and Adam 62—total 123.

"Wrong again!" What could be clearer than Eve 31 and Adam 612, the total being 643?

We believe the following to be the true and correct solution: Eve 614 Adam and Adam 6124 Eve—total 6738.

Still another calculation is as follows: Eve 614 Adam and Adam 61242 oblige Eve.

Which proves the theory that Adam was a model husband and that figures don't lie but sometimes liars do figure.

GROWERS ASSOCIATION RED BONS 223 SHEED WHEAT—a suitable quantity of this seed wheat for sale at \$2.00 per bushel. No. 1 in purity, and germinating 97 per cent in government six day test. Grade 3 on account of discoloration. Orders shipped as soon as received. Send all communications to the Secretary, J. R. Horwood, box 4651, Strathcona, Alberta. 42-4-p

RICH LOAM—All kinds of good. Fish loam, \$1.25 a load. Labor done by the hour or day. H. Bacon, phone 129, Bassano.

LOST—Between Bassano and Crowfoot, a Ford rim and tire, on Saturday, April 23. D. J. Guyatt. 42-c

THE DOMESTIC ANIMALS ACT (Municipalities)

Notice is hereby given under Section 41 of the Domestic Animals Act, (Municipalities) that the following animals were impounded in the pound kept by the Town of Bassano, and sold on the 15th day of April 1927. One bay saddle horse, aged.

branded on left shoulder
Sold to G. N. Wilson of Bassano Alta.
A two-year-old bay gelding, no visible brand. Sold to G. N. Wilson, of Bassano Alberta.

A sorrel mare, white stripe down face, indistinct brand on left shoulder branded on left thigh
Sold to G. A. J. Culbertson, of Bassano, Alberta.

The said animals may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animals. For information apply to the undersigned.
